Home Alone Safety for Kids!

Is your child ready to stay home alone?

The Home Alone Safety for Kids program helps children and their families get ready for their child's first steps towards independence and being without adult supervision. This safety program is ideally suited for children aged 9-12 years old.

Course content includes: street smarts and bike safety, online and internet safety, snacking and kitchen safety, and basic first aid skills. The unique delivery model uses fun digital and traditional games to reach children of all learning-types. All participants will receive the Home Alone Safety For Kids manual and wallet-sized certificate of attendance.
